

Reciprocal Service/Substitute Vehicle Maximum Rental Rate Schedule

Effective January 2021

The **maximum** rental rates permitted for substitute vehicles as part of emergency reciprocal service are shown below. The NationalLease Board of Directors recognizes that these rates may be high for many local markets. You are encouraged to discount your company's normal rental rates to other NationalLease members whenever possible. No additional charges—over and above these maximum rates—are permitted, including EPA charges.
