

Risk Management Committee / Review of Injuries

Dates Reviewed: April 30 to June 4, 2020

Injury Type	Injury to left foot
Description of Accident	Employee was lifting the plywood to install into new service truck. Plywood slid down wall of truck onto left foot and smashed toes.
Corrective Measures	Employee could have waited for help. Steel toe could have helped.
Injury Type	Sprain to ankle
Description of Accident	Employee had removed tires from a unit. Employee was putting tires away when there was an air line in the way. Employee went to move air line when the tire hit the employee in the back of the leg.
Corrective Measures	Make sure all hoses are picked up when job is completed. Employee should have secured the tire from continuing to roll. Employee should have stopped to make sure the tire was not moving.

Please make sure all injuries are reported to AccidentsAndInjuries@starlease.com in a timely manner. Go over with all shifts where the Injury reports are kept so they are accessible. Injury reports should be completed and turned in even if no medical treatment is given.

Our goal is for employees to punch out in the same condition that they came into work.
